

Check-up Comprehensive

Information for women and men

Tests and consultations are listed separately for women and men. The selection and performance of examinations depend on medical assessment and the hospital's confirmed offer.

Price available on request.

Programme duration: 2 business days.

Medical services are provided by the confirmed partner hospital.

Free transfer from Istanbul airport to your hotel or hospital and back, for the patient and companions.

At the hospital, the patient is accompanied by an interpreter in their native language.

Women | Comprehensive Check-Up

Price on request, after confirmation of the written offer.

CONSULTATIONS

- Check-up examination
- Cardiology consultation
- Gynaecology consultation
- Diet and nutrition consultation
- Bioimpedance for body composition

DENTAL

- Dental examination
- Panoramic dental X-ray*

CARDIOLOGY

- ECG*
- Exercise ECG / Doppler colour echocardiography*

IMAGING

- PA chest X-ray
- Thyroid ultrasound
- Whole abdominal ultrasound
- Panoramic dental X-ray*
- Bilateral breast ultrasound*
- Bilateral mammography*

CYTOPATHOLOGY

- ThinPrep cytopathology

LABORATORY TESTS

- Alanine aminotransferase (ALT)
- Aspartate aminotransferase (AST)
- Ferritin
- Faecal occult blood
- Fasting glucose
- Haemoglobin A1c (HbA1c)
- Calcium
- HDL cholesterol
- Direct LDL cholesterol
- Total cholesterol
- Serum creatinine
- Urinalysis
- Triglycerides
- Blood urea nitrogen (BUN)
- Uric acid
- Vitamin B12
- 25-hydroxy vitamin D
- Erythrocyte sedimentation rate (ESR)
- Expanded complete blood count
- Insulin resistance index (HOMA-IR)
- Insulin
- Thyroid stimulating hormone (TSH)
- Free thyroxine (FT4)
- Hepatitis B surface antigen (HBsAg)
- Hepatitis B surface antibody (anti-HBs)

* Marked tests depend on the medical team's assessment. The source brochure indicates age over 40 for exercise ECG/echocardiography, mammography and PSA; panoramic dental X-ray depends on the dental examination. The final contents are confirmed in the written offer.
